

To whom it may concern.

We have employed EWS on a subcontract bases on two projects over the last two years, one being a new Sainsbury store in Dawlish and the over a new Morrison store in Teignmouth.

Earth work solutions are very professional in their approach and maintain this throughout each project, there is nothing that is too much trouble for these guys.

Work they have carried out for us is but not limited to.

Cut and fill exercise with full level surveys

Bulk excavation with muck away off site

Dig and install a large attenuation pond

Dig to formation and stone up for base tarmac large car park's using geogrid between layers stone.

Dig and install geo-cell road

Assist with land surveys

This company are a pleasure to use very flexible and help however they can, we will be using this company on future projects were possible.

Regards
